

Air Penetrator 140i

High performance 140mm air channeling computer fan

- Industry leading air channeling fan
- Hydraulic bearing for quiet operation
- Mounting holes designed for 135mm and 140mm fan mounts
- Integrated air channeling grille double as fan guard for extra protection
- Low power consumption

Specifications

Model No.	SST-AP140i
Color	Black
Material	PC fan blades, PBT frame
Bearing	Hydraulic bearing
Connectors	3 pin
Rated Voltage	12V DC
Start Voltage	5V
Rate Current	0.12A
Rated Power	1.44W
Speed	1500 RPM
Airflow	64.34 CFM
Static Pressure	1.55 mmH2O
Noise Level	30.1 dBA
Dimension	139mm (W) x 25mm (H) x139mm (D) 5.47" (W) x 0.98" (H) x 5.47" (D)
Weight	185g
Air speed at fan edge	2.3m/s
Effective Airflow Range	2 meter
Life Time	30,000 Hrs

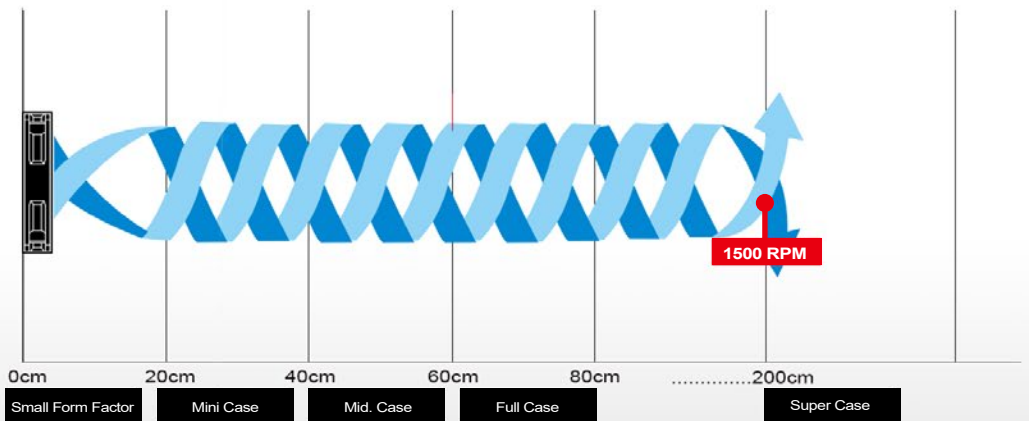

High static pressure with low noise operation

Air Penetrator 140i features pressure optimized fan blades which is designed for constant, high-pressure operation while keeping high-pitched noise low. Perfect for restrictive cases with high resistance

Extended airflow ranges

The integrated air channeling grille alters the airflow drawn, forcing it into a more focused spiral motion, this extends the effective airflow range to 2 meters, while eliminating dead spots

Directly focused airflow with extra protection

Air Penetrator 140i is a pressure optimized fan that's capable of drawing air through restrictive cases in a focused airflow direction, making it perfect as an intake fan. The grille also acts as a fan guard for extra protection
