

# FF123

## SilverStone 120mm fan grille and filter kit

- Convenient magnetized design for easy installation
- Ultra fine filter provides great dust reduction properties
- Compatible with most 120mm fans or vents

### SPECIFICATIONS

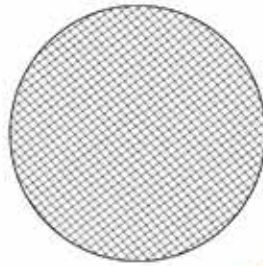

Model No.	SST-FF123B (Black - 1 pack) SST-FF123B-3PK (Black - 3 pack) SST-FF123W (White - 1 pack)
Material	PVC frame with magnet, ultra-fine nylon filter
Application	120mm fan size mount, vents, or openings
Net weight	13.6g (FF123B, FF123W) 41g (FF123B-3PK)
Dimension	120mm (W) x 120mm (H) x 1.5mm (D) 4.72" (W) x 4.72" (H) x 0.06" (D)

**Easy to clean and reusable**

## Ultra fine filter

Ultra fine magnetic fan filter provides great dust reduction properties to effectively keep your case clean

## Made of Nylon

Nylon mesh not only has higher airflow rate, it is also more resilient than plastic mesh, which makes it an ideal choice for prolonged use in PCs

SilverStone's quality craft is reflected in its precisely-cut and mating of its mounting holes, filter, and magnetic frame. This ensure flush fitting even on slightly curved surfaces

## Higher airflow

FF series fan filters' airflow rate can be as high as 65%, which is significantly higher than plastic filters found in competing designs.
